

Miracle in Myanmar

We are all familiar with stories of miracles from the Bible and the lives of the Saints but often we might think so these are things that happened many years ago and that they don't happen today.

However reports have come in of a miracle which occurred in Myanmar recently.

Myanmar, previously Burma, has been rocked by a military coup on the country is suffering from a military crackdown and there is widespread discontent among the population.

Christian churches have been targeted by the military and a number have been damaged or destroyed.

This month the military in Myanmar devastated and burned houses and a Baptist church in the village of Ral Ti in the municipality of Falam in the Burmese state of Chin.

Clearing the rubble from the burned church the pastor and local community found the bibles and the hymn books had miraculously not been damaged by the fire or the collapse of the building.

A local Christian said: "With such violence, destroying and burning houses and churches, the army will not win, but it will create even greater hostility and rebellion among the civilian population and young people."
